## About Us

Thermotech Industries (India) Pvt. Ltd., formerly known as Thermotech Industries, and has an existence in the field of manufacturing Fin Tubes and Heat Exchangers since 30 years, was formed as a Pvt. Ltd. company in 2004. Along with the formation of the Private Limited Company, we have taken major steps in enhancing our manufacturing facilities. We now have our unit in Rabale, MIDC, Navi Mumbai; one of the major Industrial Zones in India. We have a workshop measuring 12,000 sq. ft. of land, out of which 8000 sq. ft. is the Shed Area dedicated for fabrication, and 4000 sq. ft. of covered area for the manufacturing of finned tubes and press shop for manufacturing sheet metal components.

We have gained expertise in manufacturing Spiral Fin Tubes, Crimped Fin Tubes, Extruded Fin Tubes, Copper Fin Tubes, Air Heaters, Rectangular Fins, Thermal Fluid Heater and Heat Exchangers with constant up-gradation in our products as per customers' requirements. We are following the updated ASME codes to design Heat Exchangers. Also, we have extensive experience in maintaining the standards as well as requirements of various industries including Chemical, Textile, Power Generation, and Process Houses. We have accumulated and earned our experience by working with and along some top customers, which has become the foundation of our experience.

We have a dedicated team of experienced engineers and industrial professionals who perform a thorough engineering work to come up with excellent solutions that surpass clients' expectations and meet their precise application needs. Also, we are guided by our Managing Director, Mr. Amit Mistry who possesses a rich experience of 10 years in the manufacturing field of Spiral Fin Tubes & Heat Exchangers. Our overall management and finance is managed by our Managing Director & Chairman Mr. Mahendra Mistry. He is the founder of Thermotech Industries and a key person in the success of the company. Quality assurance activities are handled by Mr. Pradip Mistry who has a great expertise in QA, and he has over 15 years of sound experience in different industries.

## Quality Assurance

Quality of the products is the major concern for Thermotech Industries (India) Pvt. Ltd. We follow the latest ASME codes for designing heat exchangers and diligently adhere to all the requisite quality standards and norms. We are meticulously designing and testing the quality of our systems; ensuring that top grade material are used in the manufacturing processes. Main emphasis is given to the functionality, energy efficiency, durability and safety of the products.

# Our Prodcuts

**Wire Wound Finned Tubes  
(Root Soldered)**

**Continuous Spiral G Type Fins**

**Continuous Spiral Crimped Fins**

**Square & Rectangular Fins**

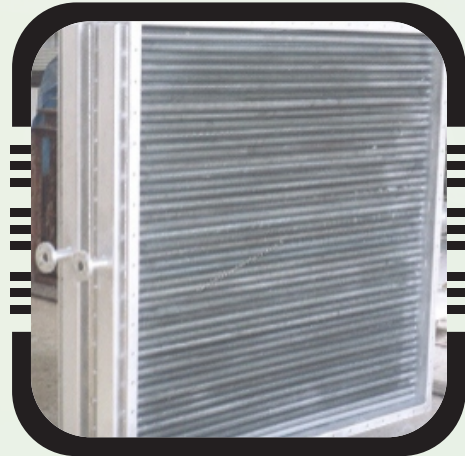

**Thermic Fluid Radiator**

**Finned Tube Heat Exchangers**

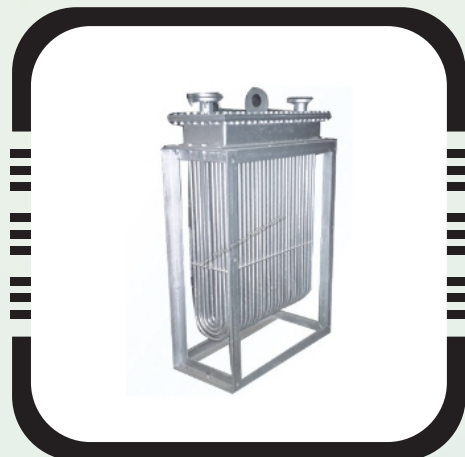

**Shell and Tube Type Heat Exchangers**

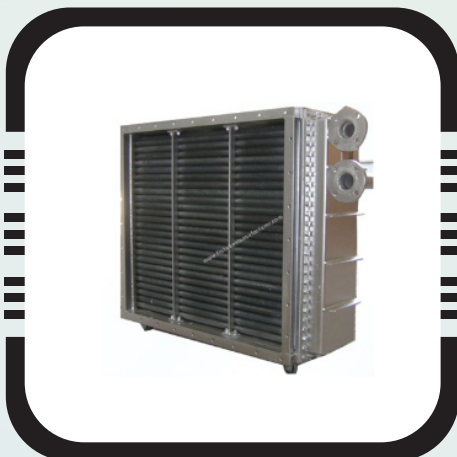

**Steam Radiator**

**Steam/Thermic Fluid Heated Air Heaters**

**Heat Exchangers with U Tube Construction**

**Air Condensers**

**Heat Exchangers For Heat Recovery**
